Dear Students, Parents and/or Guardians:

RIT is concerned about the health, safety and general physical and mental well-being of its students. We recognize, however, that students may encounter accidents and sickness while enrolled at RIT. The RIT Student Health Center, as a primary ambulatory care facility, is available to all students when medical attention is needed. To supplement this, a direct enrollment student insurance program is available through the university. **RIT requires all students to have adequate medical insurance coverage.**

Domestic students must enroll themselves directly in the Student Accident and Sickness Insurance Plan. Enrollment must be completed by **September 30, 2009** (for students first registered in fall quarter). International students should refer to the International Student Enrollment Process.

This Brochure provides information about the health care services and programs offered by the RIT Student Health Center. These services are funded through quarterly health fees, which are separate from the charges for insurance coverage, the payment of which is required and billed automatically for all full-time undergraduate students. The health fee is also used to support other health related services and health education on campus. Part-time and graduate matriculated students may use the Student Health Center by paying the quarterly fee, or by paying a per visit fee.

This Brochure also outlines the benefits offered in the RIT Student Insurance Plans underwritten by Aetna Life Insurance Company. Page 28 has a description of an Eye Care Discount Plan that is available to RIT students enrolled in the basic medical insurance plan.

**The 2009-2010 Plans** provide substantial benefits for covered medical expenses at a reasonable cost. Coverage includes the “Basic Student Accident & Sickness Plan”, the optional “Enhanced Supplemental Medical Plan” and the “Excess Accident Plan”. Coverage is also available for a student's spouse and/or dependent children at an additional charge. At no charge to students, RIT maintains the Excess Accident Plan available to all RIT students for accidents occurring on campus or off-campus during an RIT sponsored activity.

#### **Enrollment Process**

RIT requires all students to have adequate medical insurance.

If a student does not have coverage, this requirement may be satisfied by enrolling for Basic Accident & Sickness coverage **BEFORE THE ENROLLMENT DEADLINE DATE OF SEPTEMBER 30, 2009**, or later date if appropriate. Students can enroll in this Plan by:

- Going Online at **www.universityhealthplans.com**: Students have the option to either put the charge on their RIT student account or payment can be made online with a credit card. Students first registering at RIT in the winter, spring or summer quarters must enroll within 30 days from the start of the quarter.

*Note: Graduate and part-time students may enroll voluntarily in the “Basic Student Accident & Sickness Plan”.*

#### **International Student Enrollment Process**

**ALL** international undergraduate and graduate students (full and part-time) on A, B, E, F, G, I, J, K, O, Q, R and V visas will be automatically enrolled in the Basic Accident and Sickness policy on a semi-annual basis, based on registration status. Certain foreign scholars will be eligible for exemption from the RIT required insurance enrollment and will not be billed for this coverage.

For parents of entering students, we urge you to evaluate and consider purchasing the RIT Student Accident and Sickness Insurance Plan for your student, not only based upon the absence of insurance coverage, but as an important supplement to your existing coverage as well as enhanced ease of access to services which may be needed within the larger Rochester medical community.

For Student Health Center information please contact the Student Health Center at **585-475-2255** V or **585-475-5515** TTY. For Student Accident & Sickness Insurance information contact University Health Plans at **800-437-6448**, **info@univhealthplans.com**.

## **RIT HEALTH SERVICES**

---

Access to the RIT Student Health Center is available to **all** students and does not require (or accept) the use of insurance. The SHC quarterly fee and the fee paid for the Student Accident and Sickness Insurance Plan are separate and independent of each other. While the SHC does not bill or accept payment from any insurance company, staff will provide information and/or receipts as it is capable, to assist students in submitting claims for services rendered by other providers. **RIT requires all students to have insurance coverage through either their own personal insurance carrier or through this Student Accident and Sickness Program which is made available through the university.**

### **CONFIDENTIALITY**

The Student Health Center is committed to the maintenance of confidentiality in the provider-patient relationship. The release of health care information to anyone, including parents, requires specific written authorization by the student, except as required by law or for insurance reimbursement.

### **WHAT IS THE STUDENT HEALTH CENTER?**

The Student Health Center (SHC) provides a full range of primary care, treatment and referral services, as well as related health education programs. The goal of all programs and services is to take care of students when they are ill, and assist them in learning how **TO STAY WELL**.

As a free-standing ambulatory care facility, the SHC is located in the August Center which is located between the residential and academic sides of campus. This well equipped facility provides comprehensive primary care which includes a variety of outpatient services, as well as an observation unit with three beds for use during Center hours.

### **HOW IS THE STUDENT HEALTH CENTER STAFFED?**

The SHC is staffed by physicians, nurse practitioners, nurses, health educators, administrative and support staff. The SHC providers are licensed/certified (as appropriate) in specialty areas that include Adult Medicine, Family Practice, Psychiatry, Gynecology, Health Education, Sign Language Interpreting for the Deaf, Alcohol and Other Drug Counseling. The Center also serves as a teaching site for a variety of RIT academic programs including its Physician Assistant and Nutrition Programs, clinical practicum experiences are provided for students of other colleges as well.

### **WHEN IS THE STUDENT HEALTH CENTER OPEN?**

During the fall, winter and spring quarters, the SHC is open Monday-Thursday, 8:00a.m. - 7:00p.m., Friday, 8:00a.m. - 5:00p.m. Hours of operation during academic breaks and the summer quarter are 8:00a.m. - 5:00p.m. Monday through Friday. The Center is closed during weekends and university holidays.

When the SHC is closed, campus coverage is provided through the RIT Ambulance, which is dispatched by calling Public Safety (**475-3333 V** or **475-6654 TTY**). This New York State certified ambulance service is staffed by well trained student volunteer emergency medical technicians who may assess medical conditions, treat and/or transport to a local hospital emergency department as the situation requires.

### **WHO CAN USE THE STUDENT HEALTH CENTER?**

The services and programs provided by the SHC are available to **all** students. Full-time undergraduate students are required to pay the quarterly health fee and are billed automatically. Part-time, graduate and co-op students may choose to pay the quarterly health fee or use the SHC on a fee-for-service basis.

### **STUDENT HEALTH FEE COVERAGE AND FINANCIAL RESPONSIBILITY**

Most of the clinical and health education services provided by the SHC are paid for by the quarterly health fee with no additional charge to the student user of the service. This includes office visits, some routine laboratory work, immunization services, minor surgery, bed observation, on-site specialty services, substance abuse counseling, HIV antibody counseling and health education programs. Diagnostic x-ray and an array of laboratory services are provided in cooperation with community based providers, many of which may be billed by the provider to the student's health insurance carrier. Charges for pharmaceuticals purchased at the SHC or off-campus, procedures referred to off-campus providers through the medical or gynecologic clinics, lab work processed at outside laboratories, tuberculin PPD tests, some serum injections, and certain specialty procedures are the responsibility of the student or parent/guardian. In addition, the cost of receiving medical care or psychiatric counseling beyond that provided by the SHC or other on-campus services including referrals to specialists, use of hospital emergency departments or hospitalization, is the responsibility of the student or parent.

## **HEALTH SERVICES AND HOW TO USE THEM**

The SHC offers five types of services: General medicine, Allergy/Immunization, Women's Health Care, Psychiatric Evaluation (ongoing mental health counseling is provided by the RIT Counseling Center in consultation and/or collaboration with the SHC psychiatrist as needed) and Health Education which includes alcohol and other drug counseling. All services are provided by appointment. Emergency appointments are accommodated as necessary.

The SHC clinical staff includes physicians, nurses and nurse practitioners who provide medical assessment, diagnosis and treatment. Referrals are made as necessary, to outside providers/facilities to ensure more comprehensive care.

### **ALLERGY/IMMUNIZATION CLINIC**

Allergy injections are administered by appointment only on a regular basis in the Allergy Clinic at no additional charge to full-time undergraduate students. Students must provide their serum, instructions and schedule from their allergist.

### **WOMEN'S HEALTH CARE CLINIC**

The Clinic is staffed by a full-time nurse practitioner with training and experience in gynecology. Comprehensive services are provided by appointment and include complete pelvic examinations, pap smears, contraceptive services, pregnancy testing and counseling, and treatment or referral as appropriate, for other gynecological problems.

### **PHYSICAL EXAMINATIONS**

Routine physical examinations are not provided by the SHC. Arrangements may be made, for physical exams, at additional cost to the student, which may be needed for co-op, internships or jobs.

### **FORMULARY SERVICES**

For the convenience of RIT students, a limited scope of prescriptive and non-prescriptive pharmaceuticals, crutches, canes and other non-returnable orthopedic soft goods may be purchased at the SHC. Only prescriptions written by a SHC physician will be accepted. Payment by Tiger Bucks, check or cash must be made at the time of service. The student may choose to use a community-based pharmacy for medication purchases.

### **LABORATORY SERVICES**

Diagnostic laboratory testing is provided as needed in support of general medical and specialty services. Most of the lab work ordered by SHC providers, including complete blood counts, mono testing, strep throat and urine cultures, cholesterol testing and glucose testing is sent to a community-based lab. The patient (or the indicated insurance company) is billed directly for this service by the laboratory.

### **RADIOLOGY**

Diagnostic x-ray services are provided by a community based radiology group. The patient is either billed directly by the radiology group for these services or provides insurance information to the provider for direct billing to the carrier. Some HMO (Health Maintenance Organization) and PPG (Preferred Provider Group) based insurance plans exclude coverage for x-rays not authorized or taken in conjunction with that HMO/PPG. While every effort will be made by SHC staff to coordinate your level of coverage with the need for diagnostic x-ray services, you should be aware of your insurance coverage requirements and limitations at the time of your visit.

### **EKG**

Electrocardiograph (EKG) diagnostic procedures are performed by staff physicians as needed. There will be an additional charge for this service if there is need to have it reviewed/read by a specialist.

### **MINOR SURGERY**

Certain minor surgical procedures are performed by SHC staff physicians. Depending upon the level of severity as determined by the provider, procedures may include suturing of lacerations, incision and drainage of abscesses, removal of small growths, and splinting or casting for minor fractures. There is no additional charge for this service for students who have paid the quarterly health fee.

## **BED OBSERVATION**

Clinical providers may house patients for illnesses requiring observation, special treatment procedures, isolation of infectious disease, and/or for injury requiring in-bed care for the duration of hours of operation. This allows students to be observed and assisted until stable or until it is determined if another source for continuing care is needed. **There is no overnight service.**

## **HEALTH EDUCATION**

Education is an integral part of the Student Health Center. Ask about formal and informal classes, counseling for personal assistance, special presentations for academic classes or campus residences, our role as an assisting resource for class assignments.

## **MEDICAL TRANSPORT SERVICES**

The SHC may assist students in arranging medical transport services when there is an acute/emergency medical need. The campus transportation department will assist patients in getting to consulting physicians or other referral locations by taxi, for which students must pay. Short-term on-campus transportation to and from class for disabling injuries may be authorized by staff providers for transport by the campus mobility van. In addition to the above, 24 hour ambulance service is available seven days a week through the RIT Ambulance Corps. The service is of no cost to students and is dispatched through Public Safety (**475-3333 V** or **475-6654 TTY**). The ambulance provides one-way transport to the emergency/urgent care facilities only. Should the RIT Ambulance not be available, another ambulance will be dispatched for which there may be a charge.

## **HOW STUDENTS ARE ACTIVE IN THE STUDENT HEALTH CENTER**

The SHC welcomes and encourages student participation in the on-going process of enhancing and maintaining the needs of students. Feedback from individual health care consumers is strongly encouraged and may be provided in whatever way is most comfortable to the consumer.

The Student Health Advisory Council (SHAC) represents all university students and exists to provide input and assistance in the planning and evaluation of services, the preparation and review of the budget and special projects of the SHC. The group is made up of representatives from various student organizations and elected bodies, as well as interested students. The SHC places great value on the work of the Council and encourages your active participation. Interested students should contact the SHC at **585-475-2255 V** or **475-5155 TTY** or **475-5850 TTY**.

## **SIGN LANGUAGE INTERPRETER**

A full-time certified interpreter is on the staff to assist with clinical interactions between the provider and the deaf/hearing impaired patient as needed.

## **MEDICAL EXCUSES FOR CLASS ABSENTEEISM**

The SHC does not issue written medical excuses. Verbal information will be made available to faculty only with the written permission of the student.

THE RIT STUDENT HEALTH CENTER IS ACCREDITED BY THE ACCREDITATION ASSOCIATION FOR AMBULATORY HEALTH CARE, INC. (AAAHCC)

(This refund policy will not apply if you withdraw due to a covered Accident or Sickness.)

Exception: A Covered Person entering the armed forces of any country will not be covered under the Policy as of the date of such entry. In this case, a pro-rata refund of premium will be made for any such person and any covered dependents upon written request received by Aetna Student Health within 90 days of withdrawal from school.

## **DEPENDENT COVERAGE**

---

### **ELIGIBILITY**

Covered students may also enroll their lawful spouse, and unmarried dependent children under age 19, who reside with and are fully supported by the covered student.

If this policy provides coverage for dependent children who are full-time students to a higher age than other dependent children, coverage is provided for covered dependent children who are on a certified leave of absence from school due to illness, for a period of twelve months from the last day of attendance in school. The medical necessity of a leave of absence from school must be certified by the covered dependent student's attending physician who is licensed to practice. Written documentation of the illness must be submitted to Aetna.

## **ENROLLMENT**

An Enrollment Card and premium must be submitted within the thirty (30) day enrollment period for which the student is first enrolled. If the dependent is a newborn child and no other children are covered under the plan, notification of the birth along with the appropriate premium must be submitted within 30 days of such birth. (Addition of a spouse must be within 30 days of marital status change.)

An Enrollment Card and premium need not be submitted if the newly added dependent is a child and the Insured already has one or more covered children. However, written notice of the new child must be submitted within the 30-day period.

## **NEWBORN INFANT AND ADOPTED CHILD COVERAGE**

A child born to a Covered Person shall be covered for Accident, Sickness, and congenital defects, for 31 days from the date of birth. To extend coverage for a newborn past the 31 days, the Covered Student must: 1) enroll the child within 31 days of birth, and 2) pay the additional premium, starting from the date of birth.

Coverage is provided for a child legally placed for adoption with a Covered Student for 31 days from the moment of placement provided the child lives in the household of the Covered Student, and is dependent upon the Covered Student for support. To extend coverage for an adopted child past the 31 days, the Covered Student must 1) enroll the child within 31 days of placement of such child, and 2) pay any additional premium, if necessary, starting from the date of placement.

**Please note: Previously Covered Persons must re-enroll for dependent coverage by September 30, 2009 for the Fall Semester, and by March 8, 2010 for the Spring Semester, in order to avoid a break in coverage for conditions which existed in prior policy years. Once a break in continuous coverage occurs, a condition existing during such a break which is a Pre-Existing Condition will not be payable. See Continuously Insured Section of this Brochure.**

Previously Covered Persons must re-enroll for coverage, including dependent coverage, by **September 30, 2009**, for the Fall Semester, and by **March 8, 2010**, for the Spring Semester in order to avoid a break in coverage for conditions which existed in prior policy years. ## **PRE-CERTIFICATION PROGRAM**

---

Pre-certification simply means calling Aetna Student Health prior to treatment to obtain approval for a medical procedure or service. Pre-certification may be done by you, your doctor, a hospital administrator, or one of your relatives. All requests for certification must be obtained by contacting Aetna Student Health at **800-466-3185** (attention Managed Care Department).

The following inpatient services require pre-certification:

- All inpatient maternity care, after the initial 48/96 hours
- All partial hospitalization in a hospital, residential treatment facility, or facility established primarily for the treatment of substance abuse

**Pre-Certification does not guarantee the payment of benefits for your inpatient admission.** Each claim is subject to medical policy review, in accordance with the exclusions and limitations contained in the Policy, as well as a review of eligibility, adherence to notification guidelines, and benefit coverage under the student Accident and Sickness Plan.

**Pre-Certification of Non-Emergency Inpatient Admissions, Partial Hospitalization, Identified Outpatient Services and Home Health Services:** The patient, Physician or hospital must telephone at least **three (3) business days** prior to the planned admission or prior to the date the services are scheduled to begin.

## **PRE-EXISTING CONDITIONS/ CONTINUOUSLY INSURED PROVISIONS**

---

### **Pre-existing Condition**

A pre-existing condition is an injury or disease that was present before your first day of coverage under a group health insurance plan. If you received medical advice, treatment or services for that injury or disease, or you took prescription drugs or medicines for that injury or disease during the **6 months** prior to your first day of coverage, that injury or disease will be considered a pre-existing condition.

### **Limitation**

Preexisting conditions are not covered during the first **12 months** that you are covered under this plan. However, there is an important exception to this general rule if you have been Continuously Insured.

### **Continuously Insured**

You have been continuously insured if you (i) had “creditable health insurance coverage<sup>\*</sup>” (including but not limited to: COBRA, HMO, another group or individual policy, Medicare or Medicaid) prior to enrolling in this plan, and (ii) the creditable coverage ended within **63 days** of the date you enrolled under this plan. If both of these tests are met, then the pre-existing limitation period under this plan will be reduced (and possibly eliminated altogether) by the number of days of your prior creditable coverage. You will be asked to provide evidence of your prior creditable coverage. Once a break of more than **63 days** in your continuous coverage occurs, the definition of Pre-Existing Conditions will apply.

Any limitation as to a pre-existing condition will not apply in the case of a newborn enrolled within 31 days of the date of birth or a child who is adopted or placed for adoption before attaining 18 years of age and enrolled within 31 days of adoption of placement for adoption.

---

<sup>\*</sup>As used above: “creditable coverage” means a person’s prior medical coverage as defined in the New York Insurance Law section 3232.

## **GENERAL PROVISIONS**

---

### **STATE MANDATED BENEFITS**

The Plan will pay benefits in accordance with any applicable New York State Insurance Law(s).

### **SUBROGATION/REIMBURSEMENT RIGHT OF RECOVERY PROVISION**

Immediately upon paying or providing any benefit under this Plan, Aetna shall be subrogated to all rights of recovery a Covered Person has against any party potentially responsible for making any payment to a Covered Person, due to a Covered Person's Injuries or illness, to the full extent of benefits provided, or to be provided by Aetna. In addition, if a Covered Person receives any payment from any potentially responsible party, as a result of an Injury or illness, Aetna has the right to recover from, and be reimbursed by the Covered Person for all amounts this Plan has paid, and will pay as a result of that Injury or illness, up to and including the full amount the Covered Person receives, from all potentially responsible parties. A "Covered Person" includes for the purposes of this provision, anyone on whose behalf this Plan pays or provides any benefit, including but not limited to the minor child or Dependent of any Covered Person, entitled to receive any benefits from this Plan.

As used in this provision, the term "responsible party" means any party possibly responsible for making any payment to a Covered Person or on a Covered Person's behalf due to a Covered Person's injuries or illness or any insurance coverage responsible making such payment, including but not limited to:

- Uninsured motorist coverage,
- Underinsured motorist coverage,
- Personal umbrella coverage,
- Med-pay coverage,
- Workers compensation coverage,
- No-fault automobile insurance coverage, or
- Any other first party insurance coverage

The Covered Person shall do nothing to prejudice Aetna's subrogation and reimbursement rights. The Covered Person shall, when requested, fully cooperate with Aetna's efforts to recover its benefits paid. It is the duty of the Covered Person to notify Aetna within 45 days of the date when any notice is given to any party, including an attorney, of the intention to pursue or investigate a claim, to recover damages, due to injuries sustained by the Covered Person.

The Covered Person acknowledges that this Plan's subrogation and reimbursement rights are a first priority claim against all potential responsible parties, and are to be paid to Aetna before any other claim for the Covered Person's damages. This Plan shall be entitled to full reimbursement first from any potential responsible party payments, even if such payment to the Plan will result in a recovery to the Covered Person, which is insufficient to make the Covered Person whole, or to compensate the Covered Person in part or in whole for the damages sustained. This Plan is not required to participate in or pay attorney fees to the attorney hired by the Covered Person to pursue the Covered Person's damage claim. In addition, this Plan shall be responsible for the payment of attorney fees for any attorney hired or retained by this Plan. The Covered Person shall be responsible for the payment of all attorney fees for any attorney hired or retained by the Covered Person or for the benefit of the Covered Person.

The terms of this entire subrogation and reimbursement provision shall apply. This Plan is entitled to full recovery regardless of whether any liability for payment is admitted by any potentially responsible party, and regardless of whether the settlement or judgment received by the Covered Person identifies the medical benefits this Plan provided. This Plan is entitled to recover from any and all settlements or judgments, even those designated as "pain and suffering" or "non-economic damages" only.

## **COORDINATION OF BENEFITS**

If the Covered Person is insured under more than one group health plan, the benefits of the plan that covers the insured student will be used before those of a plan that provides coverage as a dependent. When both parents have group health plans that provide coverage as a dependent, the benefits of the plan of the parent whose birth date falls earlier in the year will be used first. The benefits available under this Plan may be coordinated with other benefits available to the Covered Person under any auto insurance, Workers' Compensation, Medicare, or other coverage. The Plan pays in accordance with the rules set forth in the Policy.

## **EXTENSION OF BENEFITS**

---

If Basic Sickness Expense, coverage for a **covered person** ends while he is **totally disabled**, benefits will continue to be available for expenses incurred for that person only while the **covered person** continues to be **totally disabled**. Benefits will end three months from the date coverage ends. Benefits will continue to be available for a **covered person** who incurs medical expenses directly relating to a pregnancy that began before coverage under this Policy ceased. Such benefits will be covered only for the period of that pregnancy.

If a **covered person** is confined to a **hospital** or under treatment for a covered condition on the date his or her Basic Sickness Expense coverage terminates, charges incurred during the continuation of that hospital confinement or for that treatment of the covered condition shall also be included in the term "Expense", but only while they are incurred during the 90 day period following such termination of insurance.

## **TERMINATION OF INSURANCE**

Benefits are payable under this policy only for those Covered Expenses incurred while the policy is in effect as to the Covered Person. No benefits are payable for expenses incurred after the date the insurance terminates, except as may be provided under the Extension of Benefits provision.

## **TERMINATION OF STUDENT COVERAGE**

Insurance for a **covered student** will end on the first of these to occur:

- 1) the date this Policy terminates,
- 2) the last day for which any required premium has been paid,
- 3) the date on which the **covered student** withdraws from the school because of entering the armed forces of any country. Premiums will be refunded on a pro-rata basis when application is made within 90 days from withdrawal,
- 4) the date the **covered student** is no longer in an eligible class.

If withdrawal from school is for other than entering the armed forces, no premium refund will be made. Students will be covered for the Policy term for which they are enrolled, and for which premium has been paid.

## **TERMINATION OF DEPENDENT COVERAGE**

Insurance for a **covered student's dependent** will end when insurance for the **covered student** ends. Before then, coverage will end:

- a) For a child, on the first premium due date following the first to occur of:
  - 1) the date the child is no longer chiefly dependent upon the student for support and maintenance,
  - 2) the date of the child's marriage, and
  - 3) the child's 19<sup>th</sup> birthday
- b) The date the **covered student** fails to pay any required premium
- c) For the spouse, the date the marriage ends in divorce or annulment
- d) The date **dependent** coverage is deleted from this Policy
- e) For a domestic partner, the earlier to occur of:
  - 1) the date this Policy no longer allows coverage for domestic partners, and
  - 2) the date of termination of the domestic partnership. In that event, a completed and signed declaration of Termination of Domestic Partnership must be provided to the Policyholder
- f) The date the **dependent** ceases to be in an eligible class.

Termination will not prejudice any claim for a charge that is incurred prior to the date coverage ends.

### **INCAPACITATED DEPENDENT CHILDREN**

Insurance may be continued for incapacitated **dependent** children who reach the age at which insurance would otherwise cease. The **dependent** child must be chiefly dependent for support upon the **covered student** and be incapable of self-sustaining employment because of mental or physical handicap.

Due proof of the child's incapacity and dependency must be furnished to Aetna by the **covered student** within 31 days after the date insurance would otherwise cease. Such child will be considered a **covered dependent**, so long as the **covered student** submits proof to Aetna at reasonable intervals during the two (2) years following the child's attainment of the limiting age and each year thereafter, that the child remains physically or mentally unable to earn his own living. The premium due for the child's insurance will be the same as for a child who is not so incapacitated.

The child's insurance under this provision will end on the earlier of:

- 1) the date specified under the provision entitled Termination of Dependent Coverage, or
- 2) the date the child is no longer incapacitated and dependent on the **covered student** for support

### **CONTINUATION OF COVERAGE**

A **covered student** who has graduated or is otherwise ineligible for coverage under this Policy, and has been continuously insured under the plan offered by the Policyholder (regular student plan), may be covered for up to 6 months provided that: 1) a written request for continuation has been forwarded to Aetna 31 days prior to the termination of coverage, and 2) premium payment has been made. Coverage under this provision ceases on the date this Policy terminates.

Please submit all requests to:

Aetna Student Health  
P.O. Box 15717  
Boston, MA 02215-0014

## **INTERNAL APPEALS PROCEDURE**

Aetna has established a procedure for resolving appeals by **covered persons**. If the **covered person** has an appeal, please follow this procedure:

- An Appeal is defined as a written request for review of a decision that has been denied in whole or in part, after consideration of any relevant information, a request for: claim payment, certification, eligibility, referral, etc.

### **First Level Appeals Procedure**

- An Appeal must be submitted to Aetna within 180 days of the date Aetna provides notice of denial. The Aetna address is on the **covered person's** ID card. The Appeal may be submitted by the **covered person**, or by a representative, designated by the **covered person**.
- The **covered person** may submit an oral grievance in connection with:
  - A denial of, or failure to pay for, a referral, or
  - A determination as to whether a benefit is covered under this Plan, by calling Member Services. Aetna's Member Services telephone number is on the **covered person's** ID card. If the **covered person** is required to leave a recorded message, the **covered person's** message will be acknowledged within one business day after the call was recorded.

Aetna will summarize the nature of the grievance in writing. The **covered person** will be required to sign a written acknowledgement of the grievance. Such acknowledgement will be mailed promptly to the **covered person**. The **covered person** must sign and return the acknowledgement, with any amendments, in order to initiate the grievance. Upon receipt of the signed acknowledgement, the process below will be followed.

- An acknowledgment letter will be sent to the **covered person** within 1 day of Aetna's receipt of an oral Appeal, and 5 days of Aetna's receipt of a written Appeal. This letter may request additional information. If so, the additional information must be submitted to Aetna within 15 days of the date of the letter.
- The **covered person** will be sent a response within 30 days of Aetna's receipt of the Appeal. The response will be based on the information provided with, or subsequent to, the Appeal.
- If the Appeal concerns an eligibility issue, and if additional information is not submitted to Aetna after receipt of Aetna's response, the decision is considered Aetna's final response, 45 days after receipt of the Appeal. For all other Appeals, if additional information is to be submitted to Aetna after receipt of Aetna's response, it must be submitted within 15 days of the date of Aetna's response letter.
- Aetna's response will be sent within 30 days from the date of Aetna's first response letter.

In any urgent or emergency situation, the Expedited Appeal procedure may be initiated by a telephone call to Member Services. Aetna's Member Services telephone number is on the **covered person's** ID card. A verbal response to the Appeal will be given to the **covered person** and **covered person's** provider within 2 days, provided that all necessary information is available. Written notice of the decision will be sent within 2 business days of Aetna's verbal response.

### **Second Level Appeals Procedure**

If the **covered person** is dissatisfied with Aetna's grievance determination, the **covered person**, or a representative designated by the **covered person**, may submit a written appeal within 60 business days after receipt of such determination.

- An acknowledgement letter will be sent to the **covered person** within 15 days of Aetna's receipt of the written appeal. This letter may request additional information. If so, the additional information must be submitted to Aetna within 15 days of the date of the letter.
- Aetna's final response for an urgent or emergency situation will be sent within 2 business days. For all other situations, a response will be sent within 30 business days from the date of Aetna's receipt of all necessary information.

If additional time is needed to resolve an Appeal, except in an urgent or emergency situation, Aetna will provide a written notification, indicating that additional time is needed, explaining why such time is needed, and setting a new date for a response. The additional time will not be extended beyond another 30 days.

The **covered person** must exhaust the Internal Appeals Procedure before requesting an External Appeal. However, the **covered person** is not required to exhaust the Internal Appeals Procedure prior to requesting an External Appeal, if the **covered person** and Aetna have agreed that the matter may proceed directly to an External Appeal.

Aetna will keep the records of the **covered persons** complaint for 3 years.

## **External Review Process**

### **EXTERNAL APPEAL**

#### **RIGHT TO AN EXTERNAL APPEAL**

Under certain circumstances, the **covered person** has a right to an external appeal of a denial of coverage. Specifically, if Aetna has denied coverage on the basis that the service is not necessary, or is an experimental or investigational treatment, the **covered person** may appeal that decision to an External Appeal Agent, an independent entity certified by the State, to conduct such appeals.

#### **RIGHT TO APPEAL A DETERMINATION THAT A SERVICE IS NOT NECESSARY**

If Aetna has denied coverage on the basis that the service is not necessary, the **covered person** may appeal to an External Appeal Agent, if the **covered person** satisfies the following criteria listed below:

- The service, procedure, or treatment, must otherwise be a Covered Medical Expense under this Plan, and
- The **covered person** must have received a final adverse determination through the first level of Aetna's internal review process, and Aetna must have upheld the denial, or the **covered person** and Aetna must agree in writing, to waive any internal appeal.

#### **RIGHT TO APPEAL A DETERMINATION THAT A SERVICE IS EXPERIMENTAL OR INVESTIGATIONAL**

If the **covered person** has been denied coverage on the basis that the service is an experimental or investigational treatment, the **covered person** must satisfy the following criteria:

- The service must otherwise be a Covered Medical Expense under this Plan, and
- The **covered person** must have received a final adverse determination through the first level of Aetna's internal appeal process, and Aetna must have upheld the denial, or the **covered person** and Aetna must agree in writing to waive any internal appeal.

In addition, the **covered person's** attending physician must certify that the **covered person** has a life-threatening or disabling condition or disease. A "life-threatening condition or disease" is one which, according to the current diagnosis of the attending physician, has a high probability of death. A "disabling condition or disease" is any medically determinable physical or medical impairment that can be expected to result in death, or that has lasted, or can be expected to last, for a continuous period of not less than 12 months, which renders the **covered person** unable to engage in any substantial gainful activities. In the case of a dependent child under the age of 18, a "disabling condition or disease" is any medically determinable physical or mental impairment of comparable severity.

The **covered person's** attending physician must also certify that the life-threatening or disabling condition or disease is one for which standard health services are ineffective, or medically inappropriate, or one for which there does not exist a more beneficial standard service or procedure covered under this Plan, or one for which there exists a clinical trial (as defined by law).

In addition, the **covered persons** attending physician must have recommended at least one of the following:

- A service, procedure or treatment that 2 documents from available medical and scientific evidence indicate is likely to be more beneficial to the **covered person** than any standard Covered Medical Expense (only certain documents will be considered in support of this recommendation – the **covered person's** attending physician should contact the State in order to obtain current information as to what documents will be considered acceptable), or
  - A clinical trial for which the **covered person** is eligible (only certain clinical trials can be considered).
- For the purposes of this section, the **covered person's** attending physician must be a licensed, board certified, or board eligible physician, qualified to practice in the area appropriate to treat the **covered person's** life-threatening or disabling condition or disease.

## THE EXTERNAL APPEAL PROCESS

If, through the Aetna's internal appeal process, the **covered person** has received a final adverse determination upholding a denial of coverage on the basis that the service is not necessary, or is an experimental or investigational treatment, the **covered person** has 45 days from receipt of such notice to file a written request for an external appeal. If the **covered person** and Aetna have agreed to waive any internal appeal, the **covered person** has 45 days from the receipt of such waiver to file a written request for an external appeal. Aetna will provide an external appeal application with the final adverse determination issued through the Aetna's internal appeal process or its written waiver of an internal appeal.

The **covered person** may also request an external appeal application from the New York State Department of Insurance at **1-800-400-8882**. The completed application must be submitted to the New York State Department of Insurance at the address listed in the application. If the **covered person** satisfies the criteria for an external appeal, the State will forward the request to a certified External Appeal Agent.

The **covered person** will have the opportunity to submit additional documentation with the request. If the External Appeal Agent determines that the information the **covered person** submit represents a material change from the information on which Aetna based its denial, the External Appeal Agent will share this information with Aetna in order for it to exercise its right to reconsider its decision. If Aetna chooses to exercise this right, Aetna will have 3 business days to amend or confirm its decision. Please note that in the case of an expedited appeal (described below), Aetna does not have a right to reconsider its decision.

In general, the External Appeal Agent must make a decision within 30 days of receipt of the completed application. The External Appeal Agent may request additional information from the **covered person**, the **covered person's** physician or Aetna. If the External Appeal Agent requests additional information, it will have 5 additional business days to make its decision. The External Appeal Agent must notify the **covered person** in writing of its decision within 2 business days.

If the **covered person's** attending physician certifies that a delay in providing the service that has been denied poses an imminent or serious threat to the **covered person's** health, the **covered person** may request an expedited external appeal. In that case, the External Appeal Agent must make a decision within 3 days of receipt of the completed application. Immediately after reaching a decision, the External Appeal Agent must try to notify the **covered person** and Aetna by telephone or facsimile of that decision. The External Appeal Agent must also notify the **covered person** in writing of its decision.

If the External Appeal Agent overturns Aetna's decision that a service is not necessary, or approves coverage of an experimental or investigational treatment, Aetna will provide coverage subject to the other terms and conditions of this Plan. If the External Appeal Agent approves coverage of an experimental or investigational treatment that is part of a clinical trial, Aetna will only cover the costs of services required to provide treatment to the **covered person** according to the design of the trial. Aetna shall not be responsible for the costs of investigational drugs or devices, the costs of non-health care services, the costs of managing research, or costs which would not be covered under this Plan for non-experimental or non-investigational treatments provided in such clinical trial.

The External Appeal Agent's decision is binding on both the **covered person** and Aetna. The External Appeal Agent's decision is admissible in any court proceeding.

The **covered person** will be charged a fee of \$50 for an external appeal. The external appeal application will instruct the **covered person** on the manner in which the **covered person** must submit the fee. Aetna will also waive the fee if Aetna determines that paying the fee would pose a hardship to the **covered person**. If the External Appeal Agent overturns the denial of coverage, the fee shall be refunded to the **covered person**.

## RESPONSIBILITIES

It is the **covered person's** responsibility to initiate the external appeals process. The **covered person** may initiate the external appeal process by filing a completed application with the New York State Department of Insurance. If the requested service has already been provided to the **covered person**, the **covered person's** attending physician may file an expedited appeal application on the **covered person's** behalf, but only if the **covered person** has consented to this in writing.

Under New York State law, the **covered person's** completed request for appeal must be filed within 45 days of either the date upon which the **covered person** receives written notification from Aetna that it has upheld a denial of coverage, or the date upon which the **covered person** receives a written waiver of any internal appeal. Aetna has no authority to grant an extension of this deadline.

## COVERED SERVICES AND EXCLUSIONS

In general, this Plan does not cover experimental or investigational treatments. However, this Plan shall cover an experimental or investigational treatment approved by an External Appeal Agent in accordance with this section. If the External Appeal Agent approves coverage of an experimental or investigational treatment that is part of a clinical trial, Aetna will only cover the costs of services required to provide treatment to **the covered person**, according to the design of the trial. Aetna shall not be responsible for the costs of investigational drugs or devices, the costs of non-health care services, the costs of managing research, or costs which would not be covered under this Plan for non-experimental or non-investigational treatments provided in such clinical trial.
