

## **University of Delaware PPO Blue Student Health Insurance Plan**

On the chart below, you'll see what your plan pays for specific services. You may be responsible for a facility fee, clinic charge or similar fee or charge (in addition to any professional fees) if your office visit or service is provided at a location that qualifies as a hospital department or a satellite building of a hospital.

Cost-sharing for Prescription Insulin Drugs will not exceed \$100 for a month supply			

This is not a contract. This benefits summary presents plan highlights only. Please refer to the policy / plan documents, as limitations and exclusions apply. The policy / plan documents control in the event of a conflict with this benefit summary.

- 1. Your group's benefit period is based on a Contract Year, a twelve month consecutive period from August 15, 2024 through August 14, 2025.
- 2. The Network Total Maximum Out-of-Pocket (TMOOP) is mandated by the federal government, TMOOP must include deductible, coinsurance, copays, prescription drug cost share and any qualified medical expense.
- 3. Telemedicine Services (acute care for minor illnesses available on-demand 24/7) must be performed by a Highmark Designated Telemedicine Provider. Additional services provided by a Designated Telemedicine Provider are paid according to the benefit category that they fall under (e.g. Behavioral Health is eligible under the Outpatient Mental Health Services benefit).
- 4. Services are limited to those listed on the Highmark Preventive Schedule (Women's Health Preventive Schedule may apply).
- 5. Pediatric vision and dental benefits are only available to dependent children or health plan members under age 19.
- 6. Includes Medically Necessary orthodontic services which are part of an approved orthodontic plan intended to treat a severe dentofacial abnormality. Prior approval is required.
- 7. Benefits for Emergency Care Services rendered by an Out-of-Network Provider will be paid at the Network services level. Benefits for Hospital Services or Medical Care Services rendered by an Out-of-Network Provider to a member requiring an inpatient admission or observation immediately following receipt of Emergency Care Services will be paid at the Network services level. The member will not be responsible for any amounts billed by the Out-of-Network Provider that are in excess of the plan allowance for such services.
- 8. Air Ambulance services rendered by out-of-network providers will be covered at the highest network level of benefits.
- 9. After initial evaluation, Applied Behavioral Analysis will be covered as specified above. All other Covered Services for the treatment of Autism Spectrum Disorders will be covered according to the benefit category (e.g. speech therapy, diagnostic services).

  Treatment for Autism Spectrum Disorders does not reduce visit/day limits.
- 10. Precertification or preauthorization requirements may apply to certain inpatient admissions, outpatient procedures, or covered services (including covered medications).
- 11. The Highmark formulary is an extensive list of Food and Drug Administration (FDA) approved prescription drugs selected for their quality, safety and effectiveness. The formulary was developed by Highmark Pharmacy Services and approved by the Highmark Pharmacy and Therapeutics Committee made up of clinical pharmacists and physicians. All plan formularies include products in every major therapeutic category. Plan formularies vary by the number of different drugs they cover and in their cost-sharing requirements. Your program includes coverage for both formulary and non-formulary drugs at the copayment or coinsurance amounts listed above. Under the soft mandatory generic provision, when you purchase a brand drug that has a generic equivalent, you will be responsible for the brand drug copayment plus the difference in cost between the brand and generic drugs, unless your doctor requests that the brand drug be dispensed. Your plan requires that you use a specific specialty pharmacy for hemophilia medications. Please contact member services for more details. Your plan offers the Free Market Health program for select specialty medications. You will be contacted by one of the specialty network pharmacies who will provide quality service, care, and coordination of your specialty prescription fill and delivery. No enrollment necessary.
